

## THE VIENNA BOOK – GLANZ WIEN

„You always find a way to make my day a little brighter.“ There are breath-taking areas to enjoy on Planet Earth if you are ready to depart in order to get in touch with daily wonders. Based on years of experience as a photographer and an absolute Vienna lover I invite local people as well as visitors to explore hidden gems not far away from the place where they live. In fact, it is part of my philosophy to document places by taking photographs to show various aspects of today`s life-styles, so that people get curious about alternative, especially, least predictable highlights by going on tour and feeling another stunning atmosphere inside and outside the City. In addition to this people might be inspired to leave the tourist trail now and then to share and feel the spirit of adventure led by one`s heart. For so many reasons the idea of „The Vienna Book“ – an Ode on the City - was born. My photo tour across Vienna, accompanied by a model, leads to 10 different Viennese areas and communicates various impressions taken with an analog camera. Just to mention the Bohemian Prater or the Großfeldsiedlung with its characteristic housing estates or the Green Prater and the so called Steinhofgründe. Every place is unique and worth a visit for its diversity. By the way, together they form a breath-taking perspective of the City. Here is a piece of the shooting in the „Großfeldsiedlung“:

Style: Film (analogue). Softcover Book - 208 pages

### THOUGHTS:

Thanks to my wide experience as a graphic designer the realisation of this project will be guaranteed in high quality. In addition to this, each editorial will be upgraded by a short statement. Volume1 (dedicated on Vienna) will be published in 2017, Volume2 (dedicated on cities outside Vienna) in 2018 and Volume3 (dedicated on some more European cities) in 2019.
